Draft contracts

SUITABLE CONTRACTS ARE THE BE-ALL AND END-ALL

We determine your requirements and then draw up tailor-made contracts for your company. You will not get any off-the-peg contracts from us, but only contracts that are precisely tailored to your needs.

Contact us, we will be happy to advise you!

Terms and conditions

If you conclude contracts on the Internet, for example by operating an online shop or making reservations/bookings, correct terms and conditions are extremely important.

We would be happy to draw up your general terms and conditions tailored to your needs.

Just contact us, we will be happy to advise you!

Foreclosure

SEIZURE

If you have an enforceable title, whether you have obtained it by order for payment or by legal action at court, it is possible to initiate the foreclosure by court or bailiff.

If the foreclosure is successful, the debt amount will then be paid to you.

Contact us, we will be happy to advise you!

Legal action

If the debtor does not agree and does not pay voluntarily, or even opposes the court order, the sum must be claimed in court.

In the case of a positive judgement, an enforceable title is obtained, so that one can proceed to the seizure with the legal force of the judgement.

Contact us, we will be happy to advise you!

Court order for payment

Depending on the situation, the country and the assessment in relation to the debtor, a court order for payment can be a quick means of obtaining an enforceable title.

If the court order for payment is successful, attachment can then be sought from the debtor.

Just contact us, we will be happy to advise you!

Debtor Negotiation

We are happy to enter into negotiations with the debtor and in the course of this negotiate instalment payments and settlements that satisfy both sides.

This can often avoid a court case.

Contact us, we will be happy to advise you!

Receivables reminder

In a first step we remind the debtor to pay. This is usually done both electronically and in writing by post.

In this way we want to persuade the debtor to pay voluntarily, as a court case is associated with very high costs for the creditor in the first instance and for the debtor in the second.

We would be pleased to advise you on this subject. We look forward to hearing from you!

Trademark monitoring

We continuously monitor your trademark in trademark registers and inform you about trademark applications that could be confused with your trademark.

If new trademarks are filed by third parties that potential customers might confuse with your trademark, it is advisable to react during the 3-month opposition period. In order not to miss this deadline, it is necessary to continuously monitor the trademark registers for new applications.

Just contact us, we will be happy to advise you!

Patent application

Protect your inventions. This will prevent them from being copied and imitated by your competitors.

Just contact us, we will be happy to advise you!

Design protection

REGISTERED DESIGN

Protect the distinctive look of your product. This will ensure that no competitors sell similar products to enrich themselves at your expense.

Just contact us, we will be happy to advise you!

Trademark application

Protect your brand and your reputation! The brand is the capital of your company. Only if you protect your brand accordingly, you can successfully protect yourself against imitators and free riders!

Contact us, we will be happy to advise you!

Litigation Funding

LEGAL COSTS ARE EXPENSIVE

The expenses for the court and for your own lawyer have to be advanced in a court case.

We take over these costs for you and, in case of success, receive a share of the amount claimed.

Contact us, we will be happy to advise you!

Tax optimization

Almost all businesses are run with the wrong company structure from a tax perspective.

Do not throw more money at the state than is absolutely necessary. We can help you set up your company with the right legal structure.

There is no one country that is optimal for every start-up. Often a company structure even has to be set up across several countries in order to benefit from certain advantages (e.g. parent-subsidiary privilege, double taxation treaties, nesting privilege, ...).

We incorporate companies in numerous countries worldwide, most notably in the UK, Ireland, Switzerland, and the USA.

Contact us, we will be happy to advise you!

Escrow Services

The basic problem is simple. The buyer doesn't trust the seller to deliver. The seller doesn't trust the buyer to pay.

Therefore, one of our partner law firms takes the money and pays the seller only after the seller can prove beyond a reasonable doubt that he has delivered.

Contact us, we will be happy to advise you!
